## LIQUOR DEALERS FIND HAVEN IN MEXICO

MEXICO CITY, Dec. 6.—An act of prohibition laws recently enacted in the United States, manufacturers and dealers in alcoholic beverages are taking advantage of opportunities offered in Mexico, Cuba, Canada and various South American countries as a market for their product, says the newspaper Excelsior.

## AMERICAN MOTHERS!

Our boys "over there" are blessed with good American mothers who keep them supplied with warm, hand-knitted socks—knitting, knitting the livelong day, knitting until these boys are safely home. The women of America belong to that army of mercy who backed up our boys at the front to the very end. But those American women who have experienced the backache, the dizzy, "headachy," or dragging-down feelings which accompany the weaknesses and ills of womanhood—all can find some neighbor, some friend, who have been benefited by that "Favorite Prescription" of Dr. Pierce's, which was prescribed by him fifty years ago, and which has done so much for womanhood, a tonic which contains no alcohol nor narcotic. Faded, jaded, tired, overworked women—weak, nervous, delicate and suffering ones. These are the women who are helped to health and strength by Dr. Pierce's Favorite Prescription. It's a legitimate medicine that corrects and cures; a tonic that invigorates and builds up; a nerve that soothes and strengthens. Most druggists sell it in tablets or liquid. Send 10 cents to Doctor Pierce's Invalids' Hotel, at Buffalo, N. Y., for trial package of Tablets.

Just like clock-work—that's the way your whole system moves along, when Doctor Pierce's Pleasant Pellets have put it in order. That's what they're made for—to regulate the system as well as cleanse and renovate it.

These are the original tiny, sugar-coated, anti-bilious granules; mild and gentle in their action, but thorough and effective—no pain, no griping. One little Pellet for a laxative—three for a cathartic. Sick Headaches, Bilious Headache, Constipation, Indigestion, Bilious Attacks, and many derangements of the liver, stomach and bowels are promptly relieved and permanently cured. Send 10 cents for trial package as above.

## ILLINOIS SOLDIERS SOUGHT FOR FARMS

CHICAGO, Dec. 6.—Many Illinois soldiers released by demobilization of the army will be requested to accept places on farms to maintain the state's reputation of immense productivity in agricultural enterprises, said Peter E. Fleming, director of farm labor for the State Council of Defense. Mr. Fleming is considering the situation preparatory to placing the soldiers on farms.

## BORDER CITIES IN GOOD CONDITION OFFICIAL REPORTS

HAVER, Dec. 6. (Correspondence of the Associated Press)—Conditions here about 160 miles from the Arctic circle, is believed to be farther north than any other institution of higher learning in the world. It will train its graduates to help develop Alaska along its two main lines of agriculture and mining. Authorities assert this northern soil holds big things in both food and metal.

Both United States government and Alaska territorial funds are being used by the college. Congress in 1915 designated a site for the school and set aside agricultural and mining lands in the Tanana valley for the support of the institution. The school was founded by territorial legislation voted 100,000 for the construction and purchase of equipment. An annual appropriation of \$50,000 is expected to help maintain the school.

The Fairbanks, Alaska, States government agricultural station, now located on the college site, will become part of the new institution and will continue to draw its revenue for support from the federal government.

The college corporation was laid July 4, 1918. The site is high on a hill overlooking the city of Fairbanks, the Tanana river and the railroad (the United States government is building between Seward and Fairbanks). The concrete walls are completed and work will continue as long as the weather permits.

CHARLOTTE, N. C., Dec. 6.—The annual meeting of the Associated Reformed Presbyterian synod of the South, scheduled to convene here Dec. 11, has been postponed indefinitely, according to official announcement made here, on account of the influenza situation, which has grown more serious here within the last few days.

## ALASKAN SCHOOL FARTHEST NORTH OF ALL COLLEGES

FAIRBANKS, Alaska, Dec. 6.—The new Alaska agricultural college and school of mines, under construction here about 160 miles from the Arctic circle, is believed to be farther north than any other institution of higher learning in the world. It will train its graduates to help develop Alaska along its two main lines of agriculture and mining. Authorities assert this northern soil holds big things in both food and metal.

## CROSS APPEARS WHERE 480 LIVES WERE LOST

DUBLIN, Dec. 6.—Over the sea where the Dublin mail boat Leinster was sunk by a German torpedo in the Irish channel Oct. 10 with the loss of about 480 lives a great white cross was seen in a clear sky by residents of the Dublin coast, they aver.

Canon Pim, rector of Christ church, Kingstown, sent the following statement to the Irish Times:

"On Saturday afternoon last there was a bank of cloud on the horizon, and against a clear sky above it there appeared for some moments the form of a great white cross of absolutely perfect shape. It was just, as it were, over the place where the disaster to the Leinster happened."

"One person seemed to offer no explanation, but it was certainly there, and at least it was a symbol of surpassing comfort."

POSTPONE SYNOD.

CHARLOTTE, N. C., Dec. 6.—The annual meeting of the Associated Reformed Presbyterian synod of the South, scheduled to convene here Dec. 11, has been postponed indefinitely, according to official announcement made here, on account of the influenza situation, which has grown more serious here within the last few days.

## RAW TURNIPS FED TO GERMAN FIGHTERS

WITH THE BRITISH-AMERICAN ARMIES IN THE FIELD, Dec. 6.—German soldiers on the British sector of the western front evidently were not as well off in the matter of food as their American counterparts. The correspondent of the Associated Press found at Valenciennes, for example, that the soldiers' food consisted largely of black bread, pork fat and raw turnips.

In the St. Mihiel section, on the other hand, the Germans had biscuit made of white flour, compressed beef, butter and cheese. A part of these rations had come from Russia, having been sent originally to that country for the Russian army by the United States.

In the French sector from Rheims to Verdun, the food generally of the German forces was of better grade and greater in quantity than that of the men fighting in the north.

## HUN PLANE BLOWN TO PIECES BY OWN BOMB

LONDON, Dec. 6.—A British scout airplane recently rammed the plane in search of night raiders, perceived a German bombing machine, twisting and turning in the grip of several British aeroplanes.

The British pilot dived to the attack, and put in a strong burst of machine gun fire. The German machine burst into flames and began to flutter earthward, like a huge burning leaf. Suddenly the British machine rocked in the concussion of a tremendous explosion, and the German raider vanished in a blinding flash. One of its own powerful bombs had exploded, blowing it to pieces.

STOCKHOLM, Dec. 6.—New passports for the bourgeoisie in the form of testimonial books have been introduced by decree in Russia, according to a telegram received from Petrograd.

Everybody who makes use of the work of others is to be provided with them, including directors of enterprises, members of administrative councils, merchants, brokers, ex-officers and lawyers. Only annotations of these books will entitle the bearers to travel abroad.

Due to the nationalization of exterior commerce, persons desiring to import foreign merchandise must first apply for a license to the commissariat of commerce and industry, and it is prohibited under severe penalties to correspond with foreign countries regarding exports and imports.

## WAR PROVES BOON FOR TEXANS' RICE

DALLAS, Texas, Dec. 6.—The war resulted in increased production and increased consumption of rice in Texas during the last year. An extensive campaign in the South for greater acreage and for use of rice as a substitute for wheat was largely responsible.

Big producers in Texas, where 2,000,000 sacks of rough rice is grown annually, believe that the war has taught housewives the value of rice as food and that the increase in consumption will continue. It is estimated that 28 per cent of the country's annual production of rice is grown on the 300,000 acres under cultivation in Texas. The product of the large rice mills in Southern Texas, where extensive mills have been put in, is valued at \$3,000,000, producers say.

## NEW PASSPORTS ARE TESTIMONIAL BOOKS

STOCKHOLM, Dec. 6.—New passports for the bourgeoisie in the form of testimonial books have been introduced by decree in Russia, according to a telegram received from Petrograd.

Everybody who makes use of the work of others is to be provided with them, including directors of enterprises, members of administrative councils, merchants, brokers, ex-officers and lawyers. Only annotations of these books will entitle the bearers to travel abroad.

Due to the nationalization of exterior commerce, persons desiring to import foreign merchandise must first apply for a license to the commissariat of commerce and industry, and it is prohibited under severe penalties to correspond with foreign countries regarding exports and imports.
